

 *Nhà sản xuất* 2005 - 2023

I would like to with this pdf “design for Sits Sp.zo.o. 2005-2020 to make a summary about my history with Sits

I first came to Brodnica in 2004 because you had to produce the Ikea PS Stockholm leather sofa, fabric sofa and swivel pouf, designed by me for Ikea.

Everything in the products had to be super quality with a 25-year guarantee, but sold at Ikea's prices.

Fabric sofa and Puff were in Ikea's range for 10-15 years, while the leather sofa is still there in 2023)

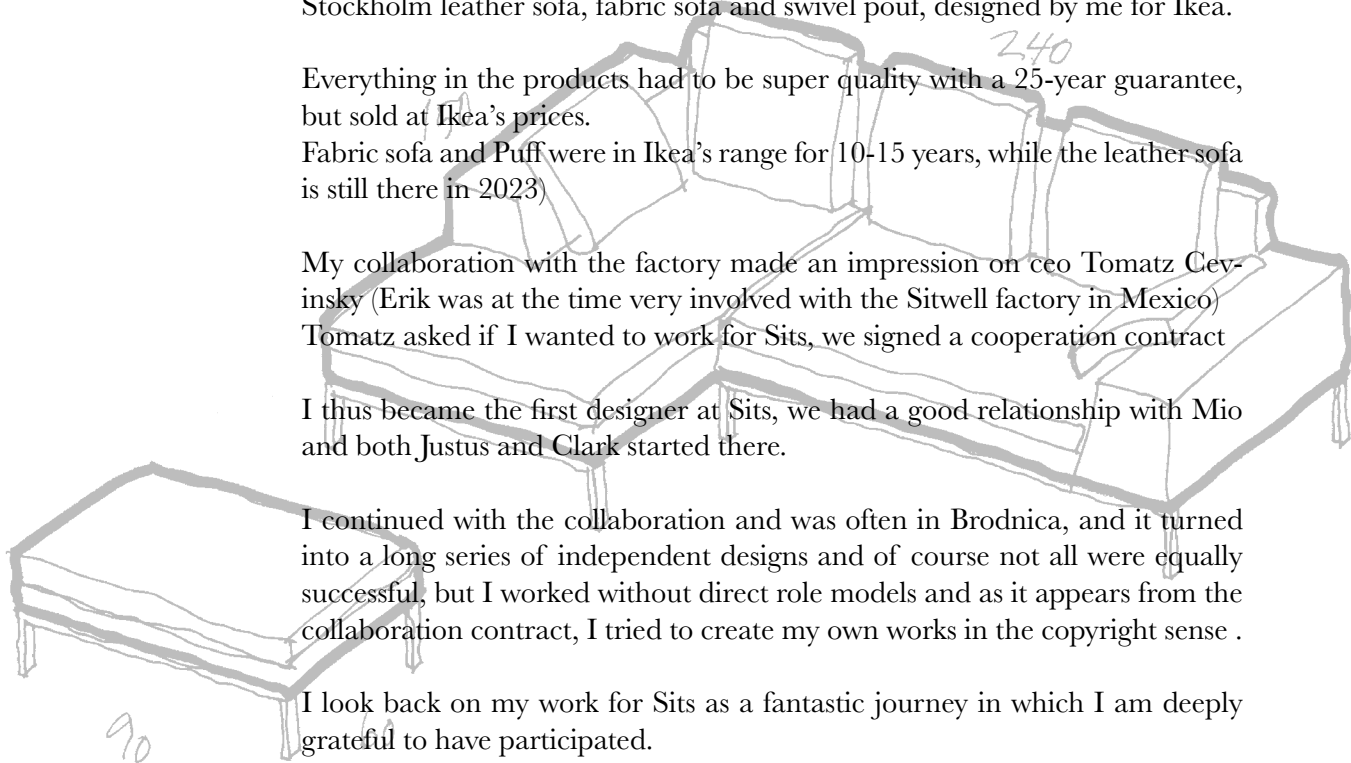

My collaboration with the factory made an impression on ceo Tomatz Cevinsky (Erik was at the time very involved with the Sitwell factory in Mexico) Tomatz asked if I wanted to work for Sits, we signed a cooperation contract

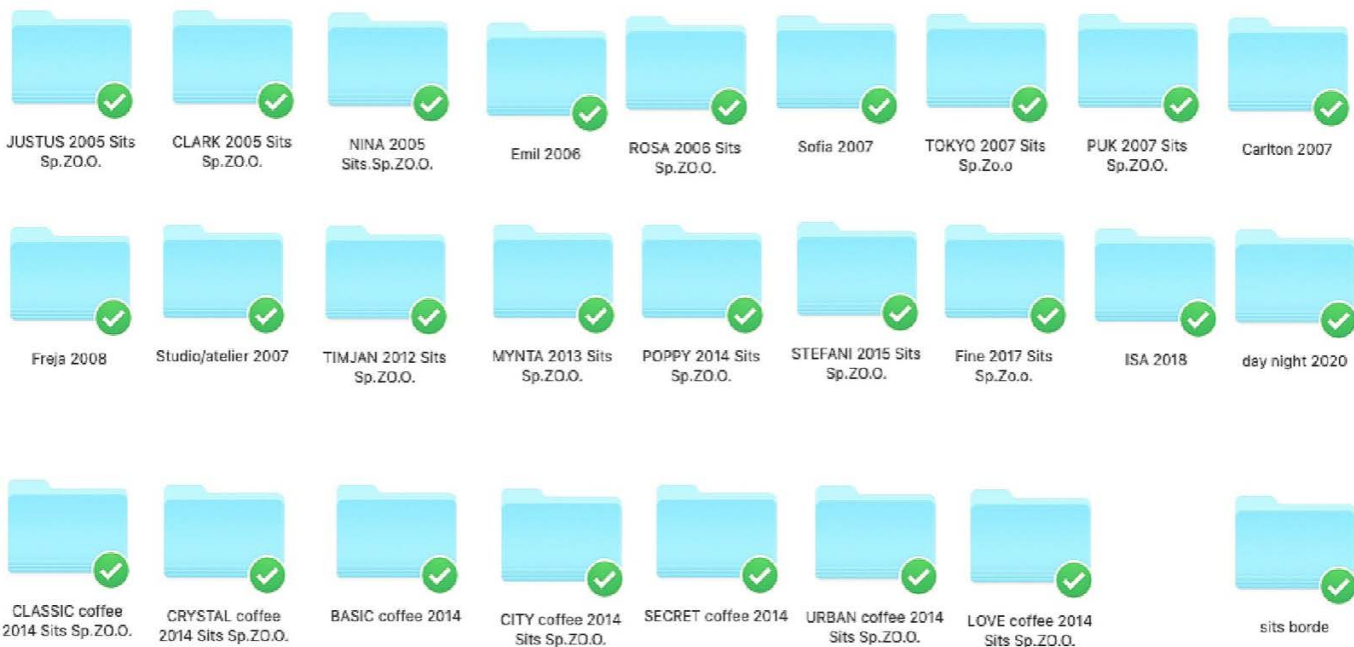

I thus became the first designer at Sits, we had a good relationship with Mio and both Justus and Clark started there.

I continued with the collaboration and was often in Brodnica, and it turned into a long series of independent designs and of course not all were equally successful, but I worked without direct role models and as it appears from the collaboration contract, I tried to create my own works in the copyright sense .

I look back on my work for Sits as a fantastic journey in which I am deeply grateful to have participated.

Copenhagen march 2023

*What I want, with this sofasystem, it to set the scene  
for a comfortable situation for family and friends  
in the day time.  
Playing, reading, relaxing,  
talking and watching tv  
To do that, we need cushions to support the body.*

*In the night time, when the cushions are removed, we  
can sleep in the sofa, because it is also designed to be a  
comfortable bed.  
We can invite family and friends to stay over.  
Or even sleep here every night, if we don't have  
a bedroom*
